EXPERIENCE

Techerax, Nigeria — Fullstack Web Developer

June 20, 2023 - September 30, 2023

Build the Social Cash API, Dashboard, and Dynamic Landing page from scratch, following the product requirements of my client.

BDLI, Nigeria — Coding Instructor

May 2023 - July 2023

I was a Coding Instructor at the Bonny Digital Literacy Initiative (BDLI), where I taught students about web development, covering topics like HTML, CSS, Javascript, and Nodejs.

Includables, Nigeria — Backend Developer

February 2022 - March 2022

Joined the backend team, and contributed to developing the Includables API.

EDUCATION

Bonny Vocational Centre, — Advanced Diploma in ICT System Support

2 September 2018 - 20 June 2020

Obtain an Advanced Diploma in ICT System Support from the City and Guilds Institute, satellite location Bonny Vocational Center.

PROJECTS

Json Validace — Detail

JSON validace (json-validace) is an open-source schema base validator that allows developers to validate JSON and javascript objects using an intuitive object schema.

Github: <https://github.com/slick-codes/json-validace>

NPM: <https://www.npmjs.com/package/json-validace>

HTML 2 Object — Detail

Object 2 HTML is a javascript library that allows developers to convert objects to a literal DOM three, the object structure is very intuitive and very easy to use.

Github: <https://github.com/slick-codes/object-2-html>

NPM: <https://www.npmjs.com/package/@slickcodes/object-2-html>

SKILLS

Javascript, Nodejs, WebSocket, VueJs, ReactJs, SvelteKit, AWS, GIT/GitHub, SQL, MongoDB, Linux, HTML, CSS, etc.

ACHIEVEMENTS

- Single-handedly built a fintech API from start to finish.
- Built a nodejs package called json-validace that allows developers to validate object data.
